

The trustees of the hall have been planning to carry out a thorough refurbishment of the building for several years. No works on this scale have been carried out since the mid 1970's. I am pleased to say that we now have the funding available to begin these works.

We want to provide as much advance warning as possible to our users, so I have provided a schedule below when certain areas of the hall will be either closed or have restricted access. Health and Safety are of course of paramount importance during the refurbishment programme.

CONFIRMED CLOSURE SCHEDULE

September 16th to October 4th: Kitchen and servery will be closed for installation of new kitchen units, cooker, flooring, painting and decorating.

October 7th to October 25th: Main Hall closed for re-decoration and replacement of lighting.

September 25th to October 16th: Replace flat roof and windows. This work is timed to take place during the above two periods.

The committee/green room will remain open during all of the above works.

We realise that these improvements will cause unavoidable inconvenience to many users, but I think you will agree that they are long overdue. Please bear with us during this exciting time.

If you have any specific concerns regards the above, give me a call at your convenience.

Best regards

Chris Poole (Chair) on behalf of the HWMH Trustees
